Epidemiology

Epidemiological comments

There have been no new cases of highly pathogenic avian influenza in Albania since the last report, dated 23 March 2006. A stamping-out policy was applied. In accordance with Article 2.7.12.4. of the OIE Terrestrial Animal Health Code, Albania declares itself free from highly pathogenic notifiable avian influenza.

Source of the outbreak(s) or origin of infection • Unknown or inconclusive

Control Measures

No Control Measures	Animals treated	No
Vaccination Prohibited	Yes	

Country / Zone

Country or zone the whole country

Diagnostic test results

Laboratory Type	Name of Laboratory	Species	Test Type	Date Results Provided	Result
-----------------	--------------------	---------	-----------	-----------------------	--------

Future Reporting

What further reports will be submitted in relation to this event? The event is resolved. No more reports will be submitted.
