Birds	Animals	102	47	47	55	0
<b>Affected Population</b> backyard poultry (51 chickens, 41 ducks, 5 geese, 3 guinea fowl and 2 peacocks).						

### Outbreak summary: Total outbreaks = 1 (Submitted)

Species	Susceptible	Cases	Deaths	Destroyed	Slaughtered
Birds	102	47	47	55	0

### Epidemiology

Epidemiological comments
<p>There have been no new outbreaks of highly pathogenic avian influenza since the outbreak reported in the immediate notification report on 18 May 2006.</p> <p>All investigations conducted in the protection and surveillance zones (clinical inspections and laboratory analyses) showed no evidence that the disease had spread from the infected farm. In compliance with European Union legislation, the protection and surveillance zones were lifted on 30 June 2006. Culling was completed on 18 May 2006 and disinfection of the affected holding on 29 May 2006.</p> <p>The Danish Veterinary and Food Administration considers that the event is resolved. As a result, and in compliance with European Union legislation, all local restrictions have been lifted. It is expected that Denmark will comply with the requirements of Article 2.7.12.4. of the Terrestrial Animal Health Code on 29 August 2006.</p>
<p><b>Source of Infection</b> • Unknown or inconclusive</p>

### Control Measures

No Control Measures		Animals treated	No
Vaccination Prohibited	Yes		

### Country / Zone

Country or zone	the whole country
-----------------	-------------------

### Diagnostic test results

Laboratory Type	Name of Laboratory	Species	Test Type	Date Results Provided	Result
-----------------	--------------------	---------	-----------	-----------------------	--------

### Future Reporting

What further reports will be submitted in relation to this event? The event is resolved. No more reports will be submitted.
