Epidemiology

**Epidemiological comments**
An intensive surveillance system is in place for all poultry farms, poultry markets and pet bird shops in Hong Kong. The H5N1 infected wild birds and goose carcases from unknown source were detected in ongoing surveillance programme on wild birds. The dates of the outbreaks are the same as the dates the birds were collected (i.e. 17 December 2011, 30 December 2011, 1 January 2012, 12 January 2012, 20 January 2012, 30 January 2012, 6 February 2012, 7 February 2012, 8 February 2012, 24 February 2012, 25 February 2012, 27 February 2012, 2 March 2012, 12 March 2012, 15 March 2012, 4 April 2012, 27 April 2012, 18 June 2012 and 29 June 2012 respectively).

A total of 19,451 poultry, including 15,569 chickens, 810 pigeons, 1,350 pheasants and 1,122 silky fowls were culled in the Cheung Sha Wan Temporary Wholesale Poultry Market on 21 December 2011. The Wholesale Poultry Market was closed. Live poultry and movement of poultry in local farms is banned for 21 days.

Surveillance and monitoring of local chicken farms has been stepped up. No H5 virus was detected in samples taken from the 30 chicken farms in Hong Kong. The Wholesale Poultry Market was reopened on 12 January 2012.

A sample collected from a pet bird shop during routine surveillance on 25 June 2012 was tested positive for H5N1 HPAI. A total of 1,453 pet birds were removed from the shop and disposed of on 5 July 2012. The Yuen Po Street Bird Garden where the pet bird shop was located will be closed for 21 days.

Source of the outbreak(s) or origin of infection • Unknown or inconclusive

**Control Measures**

**Applied**
- Quarantine
- Movement control inside the country
- Screening
- Zoning
- Disinfection of infected premises/establishment(s)
- Dipping / Spraying

**To be applied**
- No Planned Control Measures

**Vaccination Prohibited**
- No

**Country or Zone**
the whole country

## Future Reporting

What further reports will be submitted in relation to this event?

There are 1 outbreaks that are still recorded as unresolved. It is not possible to declare this event resolved until these individual outbreaks are resolved.

The event is continuing. Weekly follow-up reports will be submitted.
