Outbreak summary: Total outbreaks = 1 (Submitted)

Species	Susceptible	Cases	Deaths	Destroyed	Slaughtered
Wild species		1	1	0	0

Epidemiology

Epidemiological comments
The dead swan was being tested within the framework of the national surveillance programme. As soon as the test results became known, the National Authority immediately imposed all the measures contained in European Commission decision 2006/115/EC.
A total of 1,259 samples of wild birds found dead were tested between 1 January and 25 March 2006, all with negative results.
Source of Infection
• Unknown or inconclusive
