## **OIE Regional Representation's websites renovation project**

Seventh Meeting of the Regional Core Group (RCG7)  
of the OIE regional Commission for Europe

Bern, Switzerland - 18 December 2018

# The situation

*Why are we renovating the Regional Websites?*

- RR/SRR websites today are technically **outdated**
- RR/SRR encounter several difficulties when **updating** content on website
- **Maintenance** of the websites is not centralize
- **Content** and layout are not inline with OIE global website

# The solution

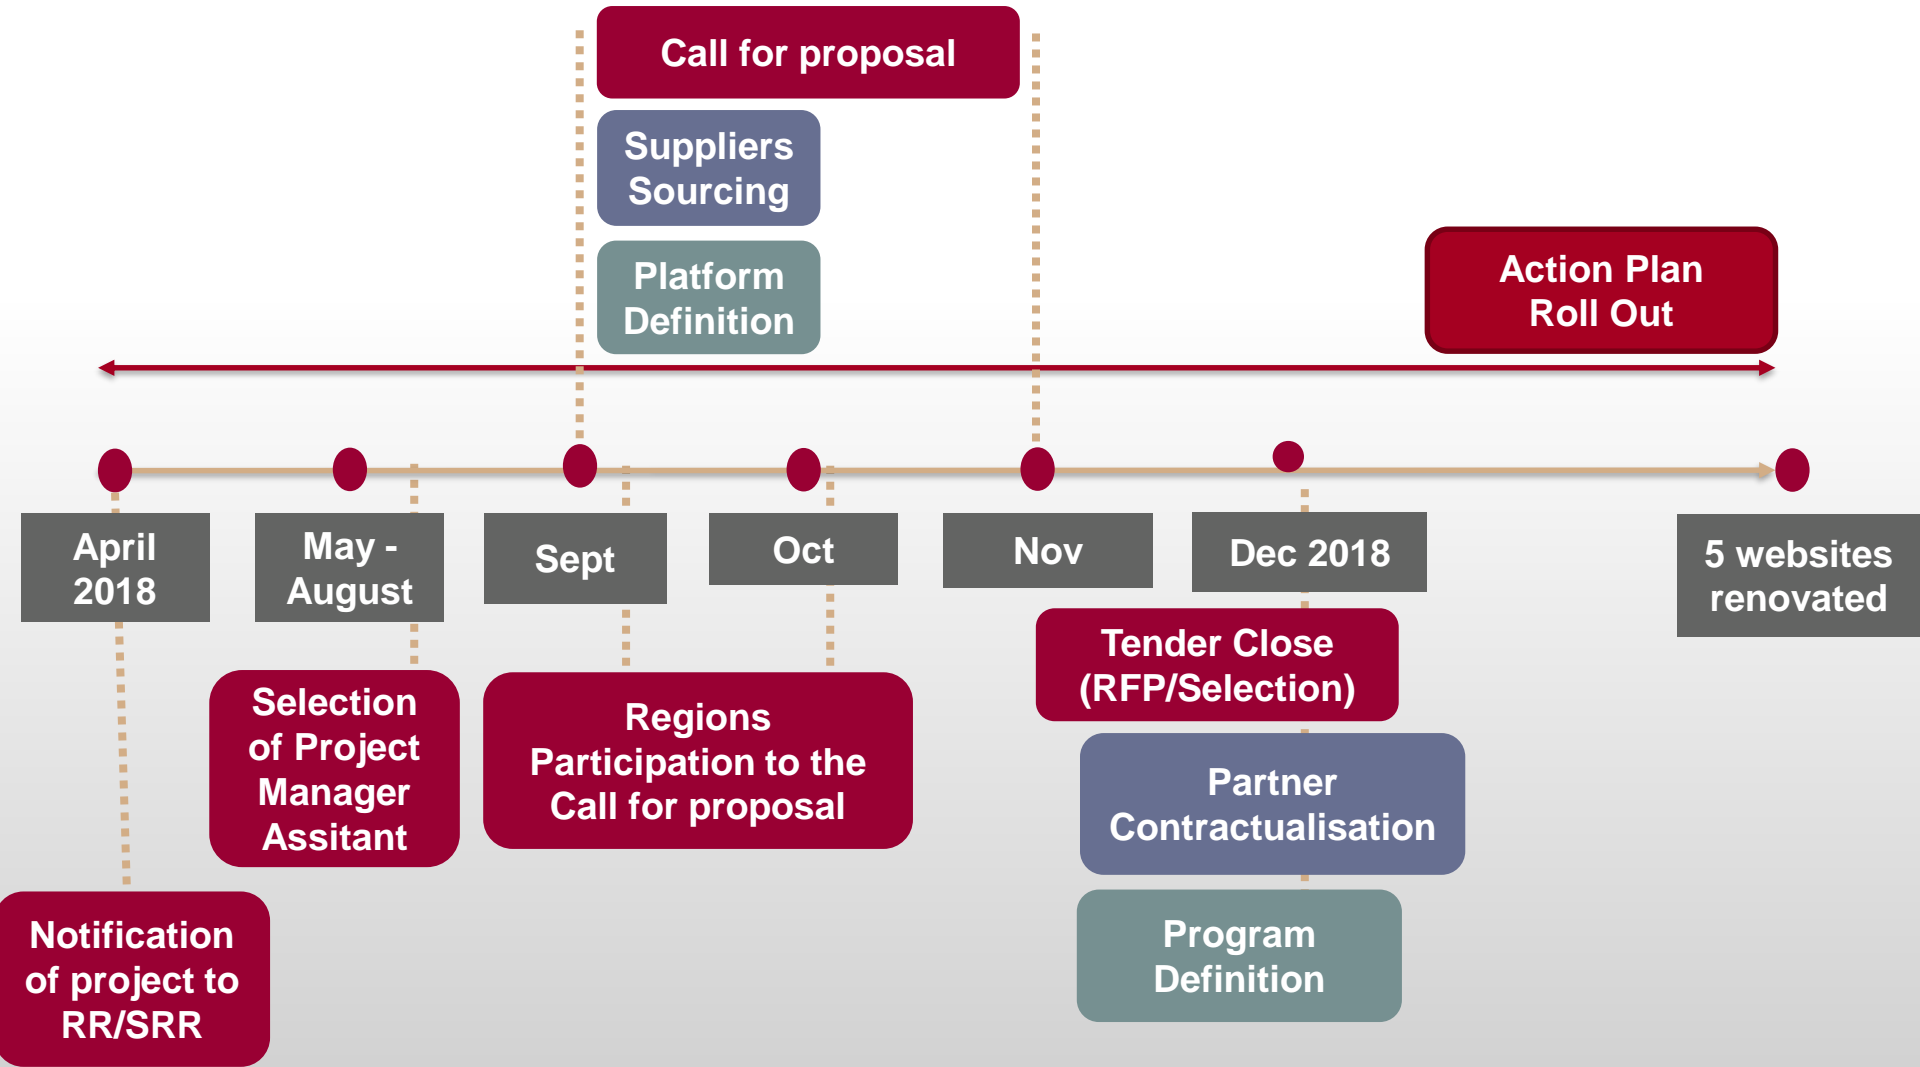

*What are the objectives of the renovation?*

- Implement a platform that will **integrate all 5 websites**
- Integrate the **structure and design of all 5 websites**
- Give **easy access for updates**
- Integrate features coming from the OIE main website
- Accompany all regions individually
- **Centralize the maintenance** and support in HQ

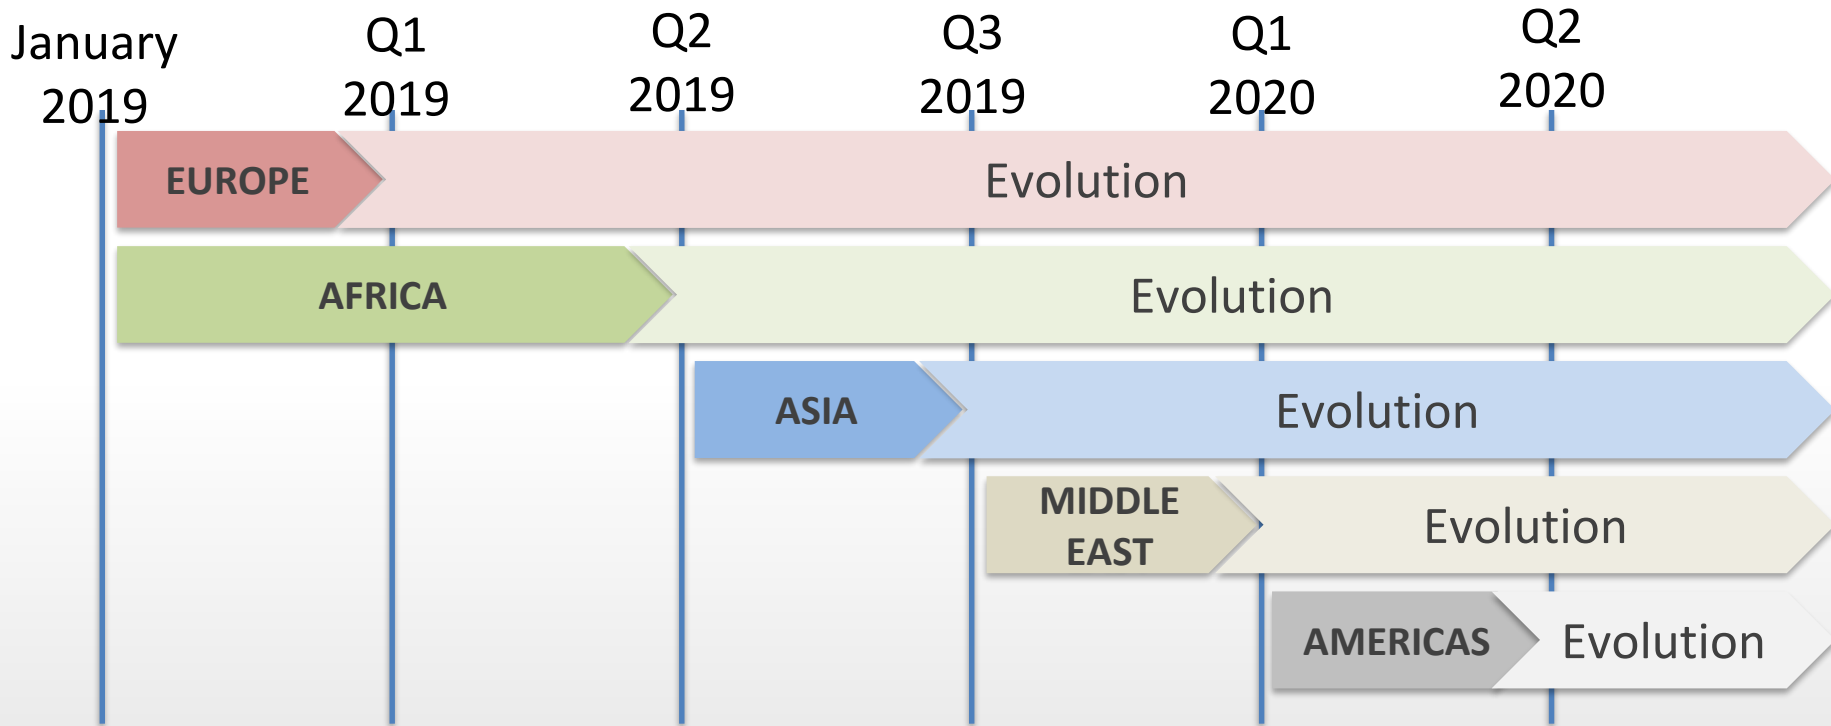

# The implementation

*What have we been doing?*

# Provisional action plan

## REGION

- Workshop for mapping
- Development
- Training on backend
- Transfer of initial content (for Europe)

## Evolution

- Transfer of content
- Fixing of bugs
- Addition of modules for specific needs
- Integration of project content (such as EU Welfare platform)
- Maintenance

BIOLOGICAL  
RISKS

ANIMAL WELFARE

FOOD  
SAFETY

STANDARDS AND  
INTERNATIONAL  
TRADE

PROCESO

## HOW ?

- ✓ Direct access to AW platform for OIE
- ✓ GF-TADs pages transferred
- ✓ EN / RU pages

# State of play as of December 2018

## Supplier consultation for the renovation of the regional websites

- ✓ Opening Committee held on December 7<sup>th</sup>
- ✓ Only two offers received
  - four service providers did not respond due to lack of time
  - According to OIE procedure for a Call for Proposal, a minimum of 3 proposals shall be received in order to continue with the selection of supplier
- ✓ Consultation with other suppliers about their availability to respond in January
  - The Committee decided to postpone the procedure to mid-January to ensure a wider choice

# State of play as of December 2018

## Consequences

- ✓ The project will start the development phase the first week of February instead of mid-January as previewed
- ✓ But... the website for Europe will remain as a priority to work with, using the website of America as a reference
- ✓ There are no issues with the funding : OIE validated with Switzerland the use of the budget for this project

Questions?

# Thank you for your attention
