Epidemiology

Epidemiological comments
An intensified surveillance in accordance with the OIE Terrestrial Animal Health Code was carried out during a three-month period when the H5N2 was detected. Clinical and epidemiological investigations of surrounding farms within a 3-km radius of the abattoir and original native chicken farm at Yen-Pu Township have finished and no NAI case was observed or detected. According to the aforementioned information, the H5N2 avian influenza outbreak in Ping-Tung County is resolved.
